

Man For Mayor Of Jerusalem Sought By U.N.

By PIERRE J. HUSS

(U. N. Staff Correspondent)

LAKE SUCCESS, N. Y., May 8.—The United Nations redoubled its quest for a stop-gap regime in Palestine today and searched for a mayor of Jerusalem acceptable to Jews and Arabs.

The candidate for the Holy City municipality post who appeared to be the man of the hour is an American, Clarence Pickett, head of the Quaker overseas aid program.

It is understood that Pickett has indicated reasons of health will prevent him from accepting such a nomination.

The Jewish agency declared that Pickett would be acceptable while the Arab higher committee spokesman claimed that his faction would not be able to give an answer until Monday.

The cease-fire agreement in Jerusalem considerably brightened the outlook for beating the mandate deadline of a week hence.

The 12-nation subsidiary group of the political committee planned to remain in session all Saturday and perhaps tomorrow to formulate stop-gap measures.

A British proposal is before the meeting for the whole of Palestine.

President Truman 64 Years Old Today

Observes Day With Busy Hours At His Desk—Quiet Day Planned

WASHINGTON, May 8.—(INS)—President Truman is 64 years old today.

The chief executive, as usual, observed his birthday with busy hours at his desk.

Foremost of his problems was settlement of the threatened railroad strike.

The president planned a quiet luncheon with members of his immediate staff in the small dining room in the basement of the executive wing of the White House.

There were also reports that members of the cabinet and a few other top Democratic figures would be present at a stag dinner in the White House tonight.

The president observed his first birthday anniversary in the White House just a few days after he became president. This was in 1945, and the day coincided with the surrender of Germany.

Paratroopers In Huge Mass Jump

CAMP CAMPBELL, Ky., May 8.

(INS)—Within 10 minutes, 2200 paratroopers plunged from 74 C-47 "flying box cars" today over Camp Campbell into "enemy" territory in the largest mass jump ever witnessed in the United States.

Although about 50 men had to call upon their reserve chutes to prevent being plunged right into the ground, there were no serious injuries reported.

The jump took place before thousands of civilians and top army brass, including Army Secretary Royall, to set off 20 days of intense maneuvers known as "exercise assembly."

The exercise, largest maneuvers held since the war, featured the jump by members of the famed 82nd airborne division which helped establish the beachhead at Normandy.

The men jumped from two groups of planes going about 120 miles per hour from a height of 800 to 1,000 feet over an area near the air strip at Camp Campbell. They were given air cover by almost 150 fighter aircraft, including P-51 Mustangs and P-47 Thunderbolts.

Pennsy Outlines Work Curtailment If Strike Occurs

Erle and Ashtabula Division Will Come To Complete Halt Tuesday Morning

E. and A. division of the Pennsylvania railroad announced today that in view of the strike called by the brotherhoods of locomotive engineers, firemen and switchmen, for Tuesday, May 11, all operations involving passenger, freight, mail, baggage and express, will cease effective that date, if the strike occurs.

Mr. W. Clement, president of the Pennsy system, said that it is with reluctance that the road must close down operations, and regrets the inconvenience which will result to travelers, commuters, shippers and general public.

The cessation of operations will become effective at 6:01, standard time, if the strike is carried out. No assurance can be given, it was pointed out, that trains enroute at the time of the scheduled walk-out will complete their runs. Tickets and reservations are still being sold but if the strike is called these sales will be discontinued.

Acceptance by the railroad of all carload and less than carload shipments will be cancelled at the time of the strike or earlier by appropriate embargo.

Although the majority of all railroad, shop and track workers will cease work, skeleton crews will be maintained in those departments and offices which maintain public contact. These include departments and offices in the major cities as well as agencies and information bureaus at the more important stations.

Certain supervisory personnel in the railroad's operating departments will also continue at their posts as well as sufficient personnel to maintain and protect the system's property during the strike.

German-Owned Assets In Spain Are Taken Over

MADRID, May 8.—(INS)—The United States, Great Britain and France reached agreement today with the Franco government today on taking over an estimated \$50,000,000 worth of German-owned assets in Spain.

The agreement, reached after months of negotiations, covers all Spanish property held in the name of nonresident German individuals, firms and companies.

Under the agreement Spain waives all claims against the German government in return for a percentage of the gross receipts derived from liquidation of the assets.

This percentage, to be calculated on a sliding scale, is expected to average between 20 and 30 per cent.

The remainder will be divided in conformity with the Paris reparations agreement among the United States, Great Britain, France and 15 other allied nations with claims against Germany.

The Soviet Union will not share in the proceeds. Russia waived all claims for reparations from western Europe in the Potsdam agreement.

Average Motorist Pictured In Need Of Parking Space

Speaker at Transportation Congress Says Parking Situation Is Practically A Mess

By WILLIAM KERWIN
(By International News Service)

WASHINGTON, May 8.—Mr. Average Motorist was pictured Thursday being somewhat confused about things in general but desperately in need of a good parking space.

To put it the way a speaker before the second highway transportation congress did, somebody "let him down" and he wonders "how we got this way" internationally and domestically.

William A. Stinchcomb, secretary of the Cleveland Metropolitan Park district, didn't offer a solution to the world's political problems. But he said that whether he likes it or not the average motorist is "caught up in this stream of world events."

Parking System Is Mess
About the parking situation, Stinchcomb said that it has become practically a mess. He said that a "short answer might be 'increasing-uncomfortable and annoying.'"

Stinchcomb argued that in the good old days the cities and towns at least provided hitching rails and hitching posts and water troughs for grandfather's horse.

But today, that's a different story. He said:

"The average motorist is becoming increasingly annoyed because there are so many of him trying to get into and through our metropolitan areas, on street systems wholly inadequate for modern motor traffic."

Inadequate Streets
Not only that, but Stinchcomb said that the autoist also is obliged to share such inadequate streets with trucks and mass transportation busses.

And, he said this current parking situation is making motorists "more annoyed" because it is the "duty" of the government to provide highways and streets.

All this, Stinchcomb said, is causing more and more motorists to wonder whether their license and tax dollars are doing the most good. He suggested that perhaps more money should be spent on "breaking through the bottlenecks of traffic."

Around Hollywood

By FRANK NEILL

(International News Service Staff Correspondent)

HOLLYWOOD, May 8.—Movie-makers are slowly learning about the newspaper business.

When 20th Century-Fox manufactured "Northside 777," the story of a Chicago reporter, they bent over backwards trying to be accurate and authentic.

But they made one miserable error when Jimmy Stewart, the reporter, typed a headline over the story he was writing. It read: "Snickers from any bonafide news-hound in the audience who knows that headlines always are written by gents on the copy desk."

The same studio has now whipped up another newspaper yarn. "That Wonderful Urge," Tyrone Power portrays a reporter, and a former newspaperman, Robert Sinclair, is directing the flicker.

List of Don'ts
Sinclair, a New York sports scribe before he got nipped by the theater bug, has drawn up the following list of rules for power to follow:

Power must dress neatly and never turn up the brim of his hat. He must double-space his stories on the typewriter.

He must type with more than one finger. He must not bawl out the city editor or talk back to the publisher or yell at police desk sergeants.

He must act like a gentleman during interviews.

He can't drink on the job.

He must not leer at women—not

Furlough 130 City Employees At Youngstown

Sixty Policemen and 49 Firemen
Out of Jobs Temporarily as
Result of Tax Vote

YOUNGSTOWN, O., May 8.—In directing the laying off of 130 city employees as of May 16, including 60 policemen and 49 firemen, and closing five fire stations, Mayor Charles P. Henderson declared Friday:

"As soon and as fast as Council provides additional funds, the men laid off will be re-instated to their positions. All personnel are being furloughed and will be re-instated in the order of seniority."

"I shall continue to exert every effort to obtain greater financial aid from the state and co-operate with the city council and all other group and persons interested in aiding in the effort to relieve the present financial emergency."

The layoffs were due to a \$500,000 budget deficit which voters at the Tuesday primary refused to make up by imposing an additional 2½ mill tax on property.

not Brazil and Argentina carry these debts, instead of our taxpayers paying them?

It may be unorthodox, but in our opinion reasonable, to suggest that any such international arrangement as that proposed by the Marshall Plan should involve the financial participation of all other nations able to make contributions. As an example: Why should we be buying Argentine wheat, at five dollars a bushel for European relief, when Argentina is as well able to contribute as ourselves?

For some seven years now Uncle Sam has carried the role of Atlas. But there is a limit to our endurance.

The cowpea has been in cultivation for more than 2000 years.

That Truck Driver Ahead Is Your Highway Friend

It is annoying, of course, to have to shift into second on a hill because a truck is ahead of you. But it's only a momentary annoyance. And the driver of the truck—especially if he is driving a PMTA member's truck, is your friend. How often have you been cautioned by a hand signal near the brow of a hill, or waved on when the road is clear?

He has been schooled in safety and he obeys the rules of the road. Sure, now and then a truck driver violates a rule, once in a while a truck is wrecked, but a look at the accident records for a year will prove that trucks are low in accident incidents.

The truck driver is your highway friend. He wants to get home safely, and he wants the same thing for you.

Large Audience Sees Operetta At Mt. Jackson

Inclement Weather Fails To Dampen Spirit of Audience at North Beaver School

Although the weather was anything but pleasant, a large audience turned out Friday evening in the Mt. Jackson high school auditorium to witness the mixed chorus in its presentation of the operetta, "Chonita," coached jointly by Miss A. Martha Matthews and Mrs. Anna Scott, music and drama teachers of the high school faculty.

The production, based on the music of Franz Liszt, was well presented by the ably trained cast, much to the pleasure of the audience. The music students of the school are to be commended for their outstanding performance.

Between acts Grace Raney and Mary Ann McKee played some Franz Liszt piano music, as did Joan Eaden on the trombone, playing "Play Gypies." The mixed quartet composed of Wilda Glasgow, Shirley Rice, Leland McCullough and Wayne Emery, were heard in "Golden Earrings."

The operetta could not have been a success without the cooperation also of Mrs. Ruth Stunkard, costume mistress; Bob McCullough, Bill Emery, Dick Martin, Harry Witherspoon, stage crew; Donny Hayes and Ed. McCullen, scenery men; Wilda Glasgow, dancing instructor; Wayne Haggis, business manager; and Marie Dutch and Grace Raney, accompanists.

Miss Matthews and Mrs. Scott were both presented with gifts from the cast of the operetta.

Seines In River Takes Many Crabs

Man Gathers Large Quantity Hard Shell Crabs To Make 'Crab Tail' Soup

While working on the triangle miniature park on South Mill street, just below South Croton avenue recently, Owen Fox, city forester, noticed a man in the Ne-shannock river, apparently seining for crabs.

Approaching the man, Owen saw a large bucket, about half full of hard shell crabs. Owen asked him what he was going to do with so many of the shell fish. He answered, "I am going to make 'crab tail soup.'" It seems what he meant was, he was going to take the little white meat from the underside of the crab and make soup out of a quantity of it.

Mr. Fox asked the man what he thought fishermen were going to do this summer for bait, when he was taking them out of the river in such large quantities. Guess he did not care.

Pilsen Children Pay Tribute To U. S. Liberators

LONDON, May 8.—(INS)—Communist propaganda has failed to drive the memory of American liberators from the minds of school children in Pilsen, Czechoslovakia. The London News Chronicle, in a dispatch from Prague, tells this story:

Czechoslovakia's Communist government has been observing the third anniversary of V-E Day with glorifications of the Russian army and belittlings of the western Allies' war efforts.

Honor Truman Army. But in Pilsen, which was liberated by Third Army GI's on May 6, school kids and students weren't impressed by the pro-Communist barrage. They turned out en masse and placed flowers on a portrait of President Truman. And they paid solemn tribute to a war memorial to the United States army.

Later, government speakers, accompanied by newsreel cameramen began the official ceremonies. A speaker asserted that Pilsen was not liberated by the Americans but by a "people's rising."

The students and school children, responded by raising aloft American flags and the crowd broke out into spontaneous applause.

Interpersing the acts were trio numbers sung by Rose Mary Audia, Dorothy DeSalvo and Barbara Mayberry. Responsible for the success of the evening was Mrs. Robert McCrumb dramatic coach.

HOLLYWOOD, May 8.—(INS)—A dime combined with a shrewd guess opened exciting new horizons for Mrs. Ward S. George and her disabled veteran husband today.

The couple bounced from comparative rags to moderate riches last night when Mrs. George, 32 and attractive, won \$20,000 in prizes on NBC's "People Are Funny" radio show.

She correctly named Cairo, Egypt, as the city designated in a riddle put to 29 other contestants in earlier weeks of the contest.

JAMES L. FERRANTE

The man "they wouldn't let resign" James L. Ferrante, burgess of Wampum, chief executive of the town since 1936, has endeared himself to the residents of this county community to such an extent that his name has become synonymous with the spirit and progress of this borough along the banks of the Beaver.

Mr. Ferrante, who besides his duties as burgess, is a teacher of science at the high school, probably likes neither job as much as his hobbies, the collecting of poisonous reptiles and animals of the United States, and rare coins.

Isn't the first a curious hobby? Yes, and dangerous, too. Mr. Ferrante admits, but it holds great fascination for him. His travels in search of specimens have taken him all over the country, mainly

through the Southwest where he compiled much of his material for lectures and exhibits. At the present time he has loaned out much of his collection to the state and educational institutions, but at one time his two thousand (yes, 2,000) black widow spiders got him two appearances on radio's Hobby Lobby.

The collecting fever doesn't stop with the head of the family, either. His son, Louis, age 11, is also a rabid hobbyist, and has items that range from army shoulder patches through old coins, match covers, model planes and ships and stamps.

Burgess Ferrante is the son of Louis and Ruby Ferrante, and has three brothers (all physicians) and four sisters (all in the teaching profession). His mother is deceased.

Mr. Ferrante was graduated from New Castle high school in 1927, and then attended Hahnemann College of Science in Philadelphia, being graduated with the class of 1929. He took his B. S. degree at Slippery Rock State Teachers college in 1932, and went on to attain his master's degree at the University of Pittsburgh in 1936. He has held his teaching post since 1932, and has served as senior class advisor since 1938.

The present burgess was appointed to fill out an unexpired term in 1936. During his tenure of office he has seen some major improvements—a new gymnasium at the high school, new sewage system, and a successful fight to eliminate a traffic hazard on Route 18 through the town.

Burgess Ferrante married the former Elizabeth M. Beatrice, and is the father of two children, Louis, and Beverly Ann.

During the war he was chairman of civilian defense in the borough, and at the present time is president of the Sons of Columbus, Council 71, member of the St. Ann Society, committeeman at St. Monica church, and a member of the New Castle Coin Club.

Youth Is Facing Murder Charges

Double Killing of Housewife and Husband Charged to Bryan, Ohio, Boy

BRYAN, O., May 8.—(INS)—A junior high school student in Bryan faced possible first degree murder charges today in connection with the double killing of a friendly housewife and her husband.

Deputy Sheriffs Howard Zuber and William Lamont said 14-year-old Ervin A. Ingle confessed last night to killing Mrs. Pearl Gabrieli, 57, and her husband because he wanted to drive the couple's automobile to a school dance tonight.

The officers said the eighth grade student was picked up on suspicion last night and broke down in the presence of his father, Keith F. Ingle, after two hours of grilling.

Sheriff Norman A. Barnes said John Gabrieli died last night. His wife's body was found in a ditch several hours earlier.

Barnes reported the boy told him he shot each of the pair through the head Wednesday night.

FIVE O'CLOCK CHURCH WEDDING

Please advise me the proper dress for a woman to wear at a 5 p. m. church wedding. Should it be street-length or long? (2) What is proper to say to the bride and groom after the ceremony?

Answer: (1) Wear your very best street-length dress.

(2) Extend to them your best wishes and tell the bride how lovely she looks. Do not offer to her your congratulations. The groom, never the bride, should be congratulated.

Question: Kindly tell me whether the bride's father should dress in formal clothes at a home wedding at which the bridal party will dress formally.

Answer: The bride's father should dress formally.

Question: Would it be permissible for an older sister to act as hostess at a wedding reception when the bride's mother is unable to attend the wedding or reception because of illness? The bride's mother announced her daughter's engagement.

Answer: It would indeed be correct.

Question: I would like to know if it is proper to wear an evening dress to a very formal church wedding at 7:30 p. m. The reception immediately follows.

Answer: Indeed, yes, it is perfectly proper. Of course, you should keep your wrap on and wear a scarf over your head if the church rules require women to cover their heads while in church.

Present your problems to Miss Markel who will promptly send personal replies to questions from readers enclosing stamped, addressed envelopes.

Conscience Stricken Man Given Sentence

POTTSVILLE, Pa., May 8.—(INS)—A former hard coal miner whose conscience got the best of him today began serving a jail sentence of 18 months to three years for a hit-run fatality nine years ago.

Judge Charles W. Staudenmeier sentenced Lawrence Fennessy on charges of hit-run driving and involuntary manslaughter after Fennessy surrendered to police. Fennessy related that his car struck a man at Ashland in 1939.

The victim, identified as Joseph A. Fisher of McAdoo, died a short time after the accident, police said.

BOY INJURED

Roy Bonei, aged nine years, son of Mr. and Mrs. Delpho R. Bonei, of 1509 Huron avenue, suffered a three-inch laceration of the right leg, below the knee, when he fell on a piece of glass while playing near his home Friday afternoon. He was treated at the Jameson Memorial hospital at six p. m.

Armament Is Obsolete Warns

John F. Dulles

NEW YORK, May 8.—(INS)—John Foster Dulles proposed Friday a new government department of "non-military defense" to combat communism and warned that "armament is as obsolete as the Maginot Line".

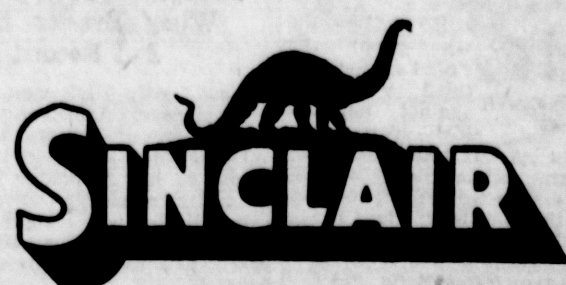

The GOP foreign policy adviser suggested that the head of such an agency should have cabinet rank and his main task would be to expose communist activities.

Dulles gave details of his scheme at a news conference yesterday and also in an address to the Bond club of New York.

Dulles warned that the third party headed by Henry A. Wallace "could mark the beginning of communist political harassment which is one of the means whereby the party discredits free governments."

Rain Limits Majors To Four Contests

Blackwell Loses Third, Complains Of Sore Arm

By LES CONKLIN

NEW YORK, May 8.—(INS)—Manager Steve O'Neill of the Detroit Tigers, who tangle with the New York Yankees in a twin bill at Yankee stadium today, served warning that the world's champions can expect plenty of opposition from the Red Sox, the Indians and his own club.

O'Neill, after predicting that his Tigers would start clicking soon, rated Cleveland on a par with Boston in the American league scramble. He thinks the Indians will win more games on the road than the Red Sox, and also pronounced the Cleveland infield the best, defensively, in the league.

The Tigers and Yanks were rained out yesterday, along with most other clubs.

Ewell Blackwell, who has a lame shoulder and is in a slump now that he has a sore arm behind him, suffered his third defeat, as against two victories, when he was unable to finish a game for the fourth consecutive time and was charged with strain caused by his pitching delivery. It remains to be seen whether Blackie can regain his brilliant form of last year when he pitched a no-hitter and won 22 games including 16 straight triumphs. He will have his lame shoulder X-rayed today.

Brooklyn trounced the Chicago Cubs 9 to 5 in a generally horrible exhibition of the national pastime which consumed three hours and 36 minutes. Five Chicago pitchers issued 14 walks.

Bob Lemon, Cleveland's converted outfielder, pitching under the arc lights, held the Washington Senators to four hits and blanked them 8 to 0. Allie Clark and Joe Gordon hit homers for the Indians, who jumped to second place in the American League.

In another night game, the St. Louis Cardinals held on in third place by defeating Philadelphia 7 to 4.

Howie Pollet pitched the complete game for the Cards, besting Lefty Oscar Judd, who was charged with the loss. Judd relieved starter Dutch Leonard after Leonard was lifted when he was hit on the shin by a drive from the bat of Al Schoendienst.

Card first baseman Nippy Jones cracked a three-run homer in the 4th inning.

Lesnevich-Charles Fight Boomed; Ray Suffers K. O.

By CHARLES EINHORN

CHICAGO, May 8.—(INS)—

Clamor for a Gus Lesnevich-Ezzard Charles light heavyweight title fight reached an undignified crescendo today in the wake of Charles' smashing knockout conquest of Elmer Ray.

Ray, the tubby antique who's number two challenger for Joe Louis' heavyweight crown, was belted in two minutes and 43 seconds of the ninth round in his feature foray against Charles at Chicago stadium last night.

And when it was over, Jake Mintz, manager of the victorious Cincinnati, O., 175-pounder, hollered:

"We wouldn't take a fight against Joe Louis now if it was offered to us. Before we go for the heavyweight crown, we want to establish our selves (non-editorial we) as absolute tops in our own class — and that means Lesnevich has got to fight Charles!"

Next door, in the number two dressing room of the stadium catacombs, the beaten Ray, who'd entered the ring holding a 17-pound weight edge over his lean, long-armed foe, lay like a trophy rug on a table while his manager, Tommy O'Loughlin, complained of a low blow.

Seconds before the coup de grace, Charles landed one in Ray's mid-section along the north ropes. The latter bounced off the strings drunkenly, strangely, his arms at his sides, slaying away from Charles and pleading pleadingly at referee Tom Kennedy (CQ).

Kennedy merely muttered: "Fight!"

Left Shakes Elmer Moments thereafter a well-measured Charles left shook the Hastings, Florida, heavyweight against the west ropes and a terrific Charles right to the head sent him plunging forward on his face. At the count of eight—a mandatory total under Illinois' new boxing safety code—Ray was pirouetting hopelessly on a knee. He pitched forward again and ended up in the referee's arms.

His, at that point, was a losing fight, even though he'd looked good against an apparently lethargic Charles in the fourth, fifth and sixth chapters. For the rest of the way, the Ohioan's snaky reach and devastating counter punches were in control.

The crowd of 9,319 payees paid only \$42,704 gross, and Charles, who was to get 22½ per cent of the net, had already promised \$5,000 to the parents and sisters of Sam Baroudi, the ill-starred Akron, O., negro who died of a brain hemorrhage six hours after being knocked out by Charles in the stadium Feb. 20.

Ray's mid-section along the north ropes. The latter bounced off the strings drunkenly, strangely, his arms at his sides, slaying away from Charles and pleading pleadingly at referee Tom Kennedy (CQ).

Kennedy merely muttered: "Fight!"

Left Shakes Elmer Moments thereafter a well-measured Charles left shook the Hastings, Florida, heavyweight against the west ropes and a terrific Charles right to the head sent him plunging forward on his face. At the count of eight—a mandatory total under Illinois' new boxing safety code—Ray was pirouetting hopelessly on a knee. He pitched forward again and ended up in the referee's arms.

His, at that point, was a losing fight, even though he'd looked good against an apparently lethargic Charles in the fourth, fifth and sixth chapters. For the rest of the way, the Ohioan's snaky reach and devastating counter punches were in control.

By CHARLES EINHORN

CHICAGO, May 8.—(INS)—

Clamor for a Gus Lesnevich-Ezzard Charles light heavyweight title fight reached an undignified crescendo today in the wake of Charles' smashing knockout conquest of Elmer Ray.

Ray, the tubby antique who's number two challenger for Joe Louis' heavyweight crown, was belted in two minutes and 43 seconds of the ninth round in his feature foray against Charles at Chicago stadium last night.

And when it was over, Jake Mintz, manager of the victorious Cincinnati, O., 175-pounder, hollered:

"We wouldn't take a fight against Joe Louis now if it was offered to us. Before we go for the heavyweight crown, we want to establish our selves (non-editorial we) as absolute tops in our own class — and that means Lesnevich has got to fight Charles!"

Next door, in the number two dressing room of the stadium catacombs, the beaten Ray, who'd entered the ring holding a 17-pound weight edge over his lean, long-armed foe, lay like a trophy rug on a table while his manager, Tommy O'Loughlin, complained of a low blow.

Seconds before the coup de grace, Charles landed one in Ray's mid-section along the north ropes. The latter bounced off the strings drunkenly, strangely, his arms at his sides, slaying away from Charles and pleading pleadingly at referee Tom Kennedy (CQ).

Kennedy merely muttered: "Fight!"

The crowd of 9,319 payees paid only \$42,704 gross, and Charles, who was to get 22½ per cent of the net, had already promised \$5,000 to the parents and sisters of Sam Baroudi, the ill-starred Akron, O., negro who died of a brain hemorrhage six hours after being knocked out by Charles in the stadium Feb. 20.

CHESNES CLAIMS

ARM IS ON MEND, TO GO IN 10 DAYS

PITTSBURGH, May 8.—(INS)—Promising rookie Bob Chesnes of the Pittsburgh Pirates said today that his ailing arm is on the mend and that he expects to be ready to pitch within ten days.

The \$65,000 hurler, who was conditionally purchased from the San Francisco Seals of the Pacific Coast League, told International News Service that the shoulder injury he sustained in spring training "caught up with him again" in the game against the New York Giants Thursday.

State Capitol

Suggest Myers
For Keynoter

Pennsylvania Senator Is
Considered For Post At
Democratic Con-
vention

OTHER NEWS OF
STATE AFFAIRS

HARRISBURG, May 8.—(INS)—The campaign to make U. S. Sen. Francis J. Myers, of Philadelphia, keynote speaker of the Democratic national convention appears to be active only in his home town. State employees in the auditor general's and state treasurer's departments on Capitol Hill, the sole Democratic strongholds, claim no knowledge of the movement. Even employees of the Democratic state committee, of late generally deserted of official party spokesmen, plead ignorance of the "boom." But they all seem to think it would be a good idea. Myers makes a good appearance and delivers a fine speech. They further argue it would be nice to have a Philadelphian set the pace of the convention in Philadelphia.

The department of internal affairs claims parking meters are large revenue producers. During 1946, they collected \$1,851,000 for the treasuries of 149 Pennsylvania communities, a survey indicated. The sum represented a 59 per cent increase over receipts of 1945. More than half of the towns put their "nickels" in a special fund, the survey revealed. The remainder dumped them into general funds. Forty-six cities spent meter receipts for traffic regulation; 25 spent them for police protection and eight, for parking lots. Receipts per meter in 1946 ranged from \$8.31 in Carbondale to \$103.73

in Hanover. They averaged \$61.37 in the state. Returns for 1947 are estimated at more than \$2,000,000.

Pennsylvania teachers have raised more than \$17,000 toward a relief fund for overseas instructors. Keystone state contributions, at last count, were second only to those of Ohio which exceeded \$20,000.

Some Democrats in high places think their State Party Chairman J. Warren Mickle, who will not seek re-election this month, may be offered the secretaryship. Mickle was secretary until 1946 when David L. Lawrence, then chairman, became mayor of Pittsburgh and relinquished the titular honor. He pushed Mickle up a step to continue to keep his hands on the Democratic committee reins. Jackson Searl, of Allentown, became secretary. He resigned the job in March at the orders of State Auditor General G. Harold Wagner, under whom he held a state job. Wagner broke with the organization over endorsement of fiscal candidates. Mickle also holds a salaried position in Wagner's office and was almost ousted due to his party chairmanship. It is believed that Mickle could be transferred to the state treasurer's office, the other Democratic stronghold. If given the committee secretaryship. Some Democrats claim the transfer might not be necessary, because the unpredictable Wagner may make another allowance in his "no politics" directive to his subordinates.

Republicans have remained mum over possible changes in the makeup of their state committee's officer list. Chairman M. Harvey Taylor is assured re-election. Vice Chairman Mrs. Edna R. Carroll, of Philadelphia, also is expected to retain her post. There is some speculation whether former Insurance Commissioner Gregg L. Neel, of Pittsburgh, may be replaced as secretary along with former Revenue Secretary David W. Harris, Philadelphia GOP boss, who serves as treasurer.

Baltimore—It is estimated that the cost of the common cold to the people of the U. S. is more than one billion dollars a year.

FIRM SOIL FOR QUICK GERMI-

NATION OF SEEDS

Silt the end of the envelope and carefully drop vegetable seeds directly from it to save time, spacing them as required, and then cover to proper depth with fine, moist soil for fast germination.

Another pointer is that light tamping with the back of the hoe will suffice early in the spring, but that added firming is required as the ground dries.

The soil should be fine and firm enough to permit moisture to move upward to the seeds. Planting depths depend upon the kind of seed, the soil, and the season.

Generally the smaller the seed the less covering it needs, and in early spring less covering is needed than later in the season. Seeds in sandy soils need more ground over them than those in heavy soils.

Before beginning to plant, drive short stakes along both sides of the garden, marking the ends of each row according to a previously constructed plan. A line stretching tightly 6 to 8 inches above the surface of the ground between two stakes serves as a guide for straight rows. The furrow may then be opened and the seeds sown directly under the line without moving it.

Very shallow furrows may be opened with the end of the hoe handle, while deeper furrows can be made by pulling a corner of the hoe along with the string.

SAVE TIME, ENERGY IN WASH-

ING DISHES

Dishwashing can be a time and energy saving task as well as a less disagreeable one if this general procedure is followed.

First, put the cooking dishes to soak as soon as the food is removed from them. Whenever possible, use cooking dishes which also may be used as serving dishes. Carry plates and dishes of food to the table on a tray or a service cart. Leave the tray or cart near the table to be used when clearing the table after the meal.

After clearing the dishes, scrub or brush the table. Put leftover food in refrigerator dishes to be stored when cool. Stack the china, silver, and glassware at the side of the sink in the order it will be washed. Stack it on the right for a right-handed person and on the left for the person who uses the left hand.

Next, clear the sink and rinse all china and silver under the faucet. Then prepare hot, soapy water. Wash the dishes and place them in the drainer for rinsing. Many homemakers have found less streaking on dishes if an immersing rinse is used. For an immersing rinse use a drainer which can be dipped in and out of a pan of hot, clear water. If the immersing rinse is not used, stack the dishes in drainers and scald them. Dry the silver and glasses but let the other dishes drain dry. After washing the plates and silver, wash the cooking dishes and pans. Then rinse them. Clean the stove, dishwashing equipment, and sink after each dish washing.

Says Truman's Trip
Is Not Political

WASHINGTON, May 8.—(INS)—The White House said today that President Truman's forthcoming trans-continental trip will not be undertaken for political purposes. Presidential Secretary Charles G. Ross took exception to widespread interpretations of the trip as being a political nature.

He said that, while the president will make a number of speeches in the Midwest, Pacific Northwest, and California, together with various platform appearances, at no point where he speaks will he be under "political auspices."

Political observers, however, regard the president's trip, whether admittedly or otherwise, as the opening gun in his campaign to succeed himself in the White House.

Top Priority Given
Food Shipments to
Europe For 90 Days

WASHINGTON, May 8.—(INS)—The economic cooperation administration's top food authority said today that food commodities have been given "top priority" in foreign aid shipments to Europe in the next 90 days.

Dennis A. Fitzgerald, ECA's food division chief, said that the shipments will be limited to such essentials as cereals, fats and oils and some meat.

Fitzgerald told reporters that recovery among the Marshall plan nations must start with food and not with increased production. But, he added:

"Of course, ECA won't get into what the nutrition experts recommend during this first period, which ends June 30."

The veteran government official said that the biggest stumbling block to increase production in the major European industrial areas is food, not the raw materials.

Hitch-Hiker Sues
Prospect Farmer

BUTLER, May 8.—A side given a hitch-hiker by W. Dewitt McBride, farmer, of Prospect, Pa., a year ago has resulted in both the farmer and the hitch-hiker facing each other across the counsel table in civil court in Butler county.

The hitch-hiker, John Thompson, aged 48, now a resident of Alliquippa, brought suit against his benefactor claiming wages due him of \$600 for work performed on the McBride farm from October 6, 1945, to April 6, 1947.

A verbal agreement over the wages to be paid is in dispute. No decision has been given as yet by the court.

Spain To Turn Over
Nazi Looted Gold
For Distribution

WASHINGTON, May 8.—(INS)—Diplomatic quarters disclosed Friday that after two years of negotiation, Spain has agreed to turn over identifiable Nazi looted gold

to the tripartite gold commission for proper distribution.

Formal announcement of the agreement is expected later today.

The United States, Great Britain and France, whose representatives comprise the Allied gold commission, have approved the text of an agreement worked out in Madrid with Generalissimo Franco's government.

During the war, Germany had a number of transactions with the

Spanish government which were paid for in gold.

Since cessation of hostilities, the Allies contended that some of this gold actually came from stores looted by the Nazis in occupied countries.

There is no estimate of the amount involved in the final agreement, but it is understood to be relatively minor.

Strip cropping is beneficial in controlling soil erosion.
